FIVE SOCIALISTS FIRED FROM N. Y. ASSEMBLY

(By Associated Press) ALBANY, N. Y., April 1.—Louis Waldman, August Claessens, Charles Solomon, Samuel DeWitt and Samuel Orr, socialists of New York City, composing the entire delegation of their party in the New York assembly, were expelled by the legislature today. The majority in favor of unseating them on charges of disloyalty was substantial.

The voting came after twenty-two hours of oratory, parliamentary wrangling and filibustering. Owing to the fact that the men were expelled after midnight, March 31, there can be no special elections to fill the seats in the assembly unless an extraordinary session of the legislature is convened.

CHANGE OF TIME ON BUSH STREET

The San Francisco Mining Stock Exchange adjourned today for two days out of deference to Good Friday. When sessions are resumed Monday the gong will sound for the first call at 9 o'clock instead of at 9:30, so that the call may be in line with the new daylight saving policy of the New York Curb and the New York Stock Exchange which have been trading half an hour earlier since last Monday. The sessions will run through from 9 o'clock to 1 o'clock, Pacific time.

WEST DIVIDE DRIVING NORTH

A drift is being driven north from the tunnel of the West Divide to reach under the oreshoot opened in the shaft workings, and it is planned to extend the south drift from the shaft until this drift and the one from the tunnel can be connected by a raise.

No ore has been found in the work through the tunnel, but the vein is wider than on the shaft level, and L. I. Patrik, manager for the West Divide, is confident that the downward extension of the oreshoot will be found with additional driving. The distance between the tunnel and the vein and the shaft workings is such that the oreshoot would have to be unusually long to extend between the two points.

REFERRED TO CALIFORNIA COURTS FOR ADJUDICATION

In sustaining a demurrer in the case of Leon S. Mayer against the MacNamara Mining and Milling company, Judge Averill stated there was nothing in the case to show that the plaintiff should seek redress in the district court of Nevada rather than in that of the San Francisco county of which both plaintiff and defendant were citizens. The plaintiff was given ten days to explain why he came to a Nevada court.

REDWOOD PIPE WELL PRESERVED

A six-inch wooden water pipe which had remained buried for eleven years was unearthed recently in the southern end of Nye county and shipped to Reno where there is a demand for this class of conduits to be used in irrigation systems. The pipe was laid by the horax company in 1909 when that company sought to divert water from the underflow of the Amargosa for use at Death Valley Junction. Over four miles of pipe was laid but never used as the state engineer's office enjoined the company from taking water from the state of Nevada for use in California. This action led to abandonment of the project and the horax company found all the water that was needed to supply its locomotives and for domestic purposes by drilling a well at Death Valley Junction. The wooden staves were treated with asphalt and were as good as new when they were taken up last week.

Lee L. Mudgett bought the line and looked after the removal and shipping. He says the horax company is doing a land office business, treating five carloads daily at the calcining plant at the junction.

SHIMMY DANCE FOR GOLDFIELD

The Goldfield lodge of Kamels, not affiliated with the national organization spelled with a "C," but with identical sympathies, will next Monday night at Goldfield stage a stupendous, inspiring, colossal, magnificent shimmy contest as the main event of a dance of many rounds and features to celebrate the evolution of a Kamel into a Kamel. A "high-grade" ring will be presented to the best lady shimmyer, and there will be a "high-grade" scarfpin for the male who shivers most artistically. Nothing will be barred from entering except a jellyfish.

A six-piece orchestra from Tonopah with Lichtenberg as the leader has been engaged, and refreshments, home-made cake and coffee, will be served free as the air of the desert over which the camel roams. This will set the Kamels back many shakels. However, the Kamels are doing a large amount of advertising here and they plan to run "39" to accommodate part of the crowd that is expected from Tonopah.

The dance will be a jittery until expenses have been cleared, after which the Kamels will not charge for their entertainment.

MINERS DON'T WANT ANY SCHOOL VACATION

The Tonopah School of Mines is remaining in session throughout the Easter vacation as the prospectors and miners taking advantage of the course are different from the children attending the other classes. The miners are so busy in getting for the sake of a holiday as the end of the winter is nearing and they feel the sagbrush calling them home. Superintendent Bennett felt the same way about it and that is one reason why the school of mines is still in session when all other branches are idle.
